

"Breeding of Innovative asparagus by using relative species endemic to Japan"

Prof. Yukio OZAKI

- **Laboratory of Horticultural Science**
- **Faculty of Agriculture, Kyushu University, Japan**
- **Vice President of the Japanese Society for Horticultural Science (JSHS)**

I graduated from the Department of Agronomy, Faculty of Agriculture, Kyushu University in 1989, and had worked as a researcher focusing on breeding and cultivation of vegetables at public (prefectural) agricultural experiment station for four years. I have been engaged in research at Faculty of Agriculture, Kyushu University as an assistant professor (1993–2006), as associate professor (2006–2018), and as professor (2018–). My work focusing on phylogeny, genetics and breeding, and physiological and ecological characteristics in horticultural crops.
